For mop buckets dilute with water 1:150 = 30 ml in a bucket.  
Yields 66 x 750 ml triggers.

## KEY BENEFITS

Completely ECO Friendly

Reduces Foul Urinal Odours

Helps Keep Your Urinal & Drains Clear

Helps Prevent Urinal "Backing Up"

Imparts Pleasant Fragrance

Negates Need For Aggressive  
Chemicals

Removes uric salts and reduces  
lime scale that accumulates on the  
WC, sinks, urinal and troughs etc.

This product is an Environmentally Friendly pH Neutral biological cleaner which cleans & removes smells by digesting the odour causing organic matter & converting them back to nature & can be used with biological blocks such as the Bioball & biological urinal sleeves.

It is recommended for use in washrooms for urinals, sanitary wear, tiles, sinks, floors & any washable hard surfaces.

Spray area, wipe clean & spray again without rinsing away to allow the product to continue working & eroding organic matter & smells.

Poor used mop bucket water down urinals to help clean urinal pipe work.

Best to apply just before the washroom is closed or in a period of low usage.

Avoid spraying directly onto polished surfaces.
